Professional Experience

Merrimack Street Volvo Cars   **Manchester, NH**
Receptionist   October 2020 – Present

- Proficient in answering and directing calls, providing information, and interacting with visitors in a clear and friendly manner.
- Strong ability to draft emails, memos, and office correspondence with attention to detail and professionalism.
- Skilled at prioritizing tasks and managing time effectively to meet deadlines and ensure office operations run smoothly.

Projects

Web Fitness PC App   **Manchester, NH**
Software Developer

- Led the development of a C# and WinForms-based app, designing and implementing intuitive desktop interfaces and ensuring seamless user interaction with backend services.
- Collaborated with a cross-functional team to design and develop a Web Fitness app, contributing to user experience strategies, wireframing, and feature development to ensure alignment with project goals and user needs.

YesChef Android App   **Manchester, NH**
Software Developer

- Engineered an Android-based YesChef app that leveraged Java to build personalized recipe recommendations for a user.
- Implemented data handling for the app, receiving and sending JSON payloads between the mobile app and backend servers to ensure faultless communication.
- Utilized XML for designing and implementing the frontend layout of the YesChef Android app, creating responsive and visually appealing user interfaces, and ensuring compatibility across multiple device screen sizes and resolutions.
